

# US Door has all the pieces

# to the self storage puzzle

**US Door is your one-stop destination for self storage building systems.**

#### **VALUE STORAGE INTERIORS—**

The US Door Value Storage Series is the ultimate in hallway panels, partition walls and all the self storage building components you need for your project. US Door products for self storage are designed for ease of installation, structural integrity and years of maintenance free protection. Flush "Cee" channels of hot dipped galvanized steel and interlocking hallway panels with hemmed edge design and hidden fasteners, corrugated piers channels and much more combine for every piece of the self storage puzzle you need.

#### **STACKABLE LOCKER UNITS —**

These ready-to-assemble lockers allow you to advertise storage at a low cost monthly rate. The locker units fit in the tightest places such as stairwells. They can be stacked together in unrentable units turning empty space into profits. The lockers are practical and good looking with an available stainless steel door option.

#### **MEZZANINE —**

Self-storage owners can convert single-story projects to two-stories with Double Deck Mezzanines Systems. Full coverage or island conversions provide rental income from every square foot of a big-box retail building or other existing buildings with high ceilings. for full coverage or island .

#### **ROLL UP DOORS —**

The corrugated roll up door from US Door is the industry benchmark. A US Door comes in one of 18 standard colors or optional custom colors to match the most décor.
